

Quilt in the Hoop

Spring 2017 Mystery Quilt Sew Along

The project is a twenty one inch square wallhanging consisting of 16 blocks using 4 different patterns. We will provide videos and instructions for each step of the way so if you have never used the app don't worry, it is really easy. Of course Jim and I will be available to answer any questions. Gather your supplies and we will get started in a few days.

Supplies:

- [Quilt in the Hoop app](#) installed on your iPad
 - Fat quarter of fabric one
 - Fat quarter of a coordinating fabric to fabric one
 - Fat quarter of a light fabric that will be the background
- Important note:** All the pieces of the light fabric can be cut from one fat quarter if you are careful. However there is *no wiggle room* for error so I suggest buying a little extra just to be safe.
- 1/8 yd fabric for the border
 - 24" square of fabric for backing
 - 24" square of batting
 - Thread for needle and bobbin (I love Superior threads, especially Bottom Line)
 - Embroidery hoop for a 4½" design
 - 16 pieces of stabilizer to fit the hoop
 - Tear away, wash away or lightweight mesh all work fine. It is your choice.
 - Basic sewing supplies (rotary cutter, mat, ruler and small scissors for clipping threads).

Preparation:

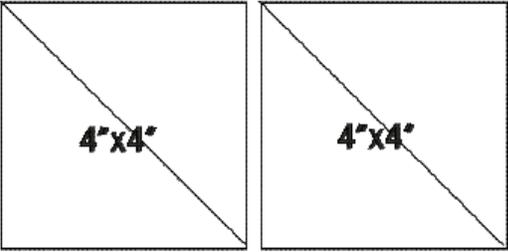

Press and starch your fabric with a couple layers of starch.
Cut out the fabrics per the chart and label with the size.

Just a word of closing, We are really excited to offer this fun way to use the app. Please give us feedback along the way. We usually teach in a classroom situation so this is a new direction for us. We hope to have lots more to follow.

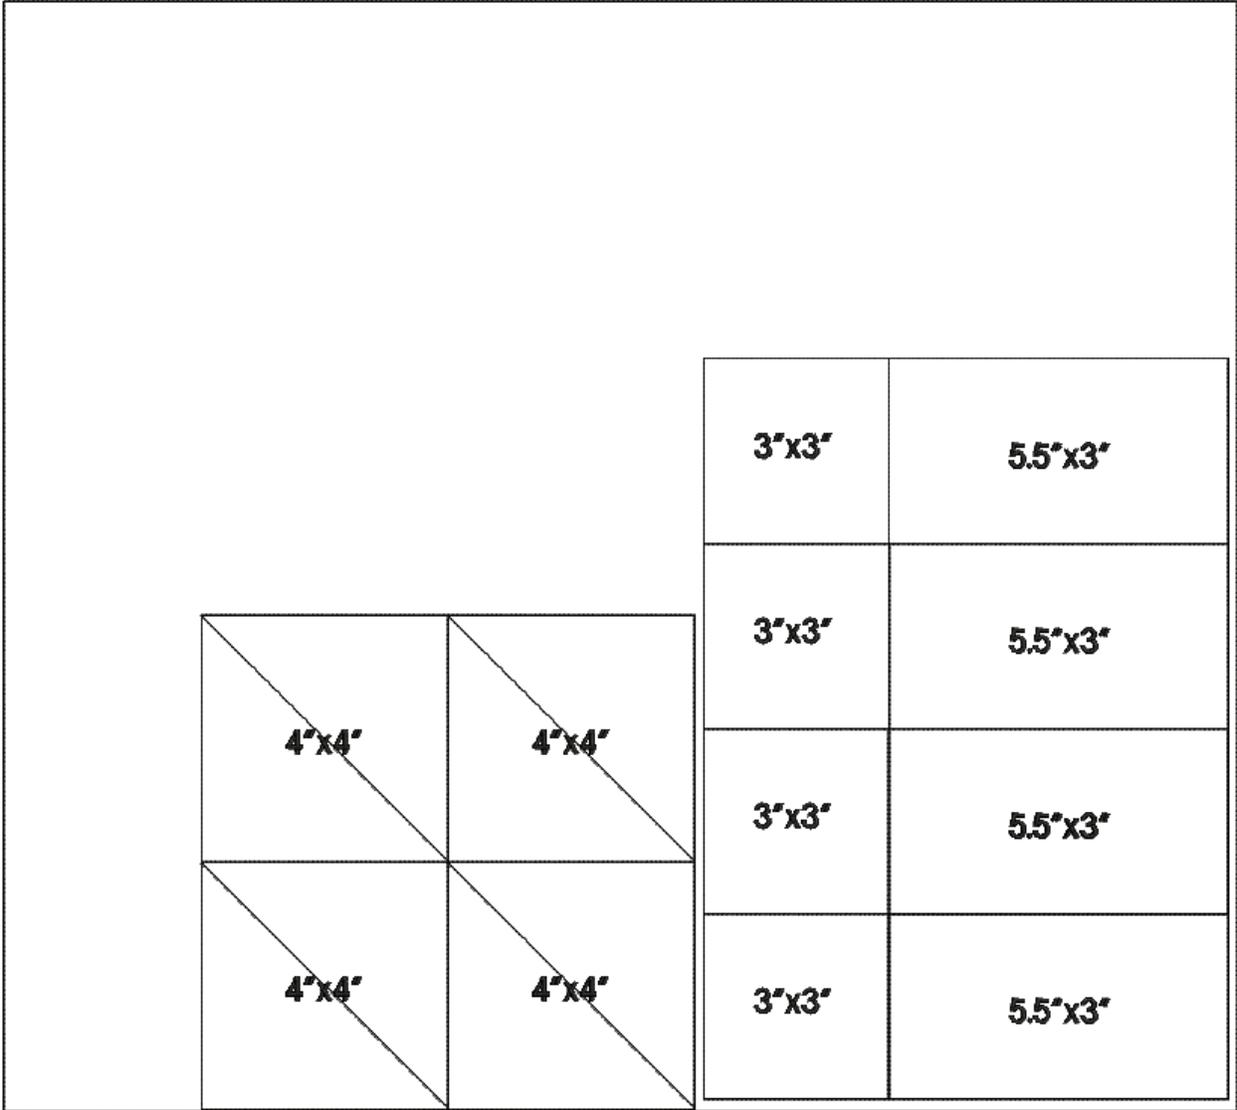

Thanks so much for joining!
Diane and Jim
